

Nathan Santos

FULL STACK DEVELOPER

Sorocaba, Brazil | nathan.rgs@gmail.com | +55 15 99741-1076 |

LinkedIn: | https://www.linkedin.com/in/nathan-rgs/ | **Portfolio:** | https://nathan-rgs.vercel.app/

PROFESSIONAL SUMMARY

Full Stack Developer with a Computer Engineering degree and international software development experience in Germany. At Omie, builds CRM features end to end: Python and FastAPI services on AWS Serverless (Lambda, SQS, DynamoDB) on the back end, Vue and React on the front end, plus integrations such as Zoom and an AI-assisted sales flow. Strong grasp of the business domain, not only the technical side.

Python **FastAPI** **AWS Serverless** **TypeScript** **Vue.js** **React** **PostgreSQL**

CORE STRENGTHS

Product delivery: production-ready front-end and full-stack execution

Architecture: Python/FastAPI APIs on AWS Serverless, data modeling, and system integration

Collaboration: technical refinement, design reviews, code review, and agile teamwork

PROFESSIONAL EXPERIENCE

Full Stack Developer

Aug 2024 - Present
Remote, Brazil

OMIE

- **Owned CRM features end to end.** Full-stack developer on the CRM squad, shipping on both back end and front end with a strong grasp of the business domain.
- **Built production APIs in Python and FastAPI.** Pydantic, async SQLAlchemy and Alembic migrations, covered by pytest.
- **Ran services on AWS Serverless.** Lambda, SQS, DynamoDB and Secrets Manager, plus OpenSearch for search and Redis for caching.
- **Delivered across three front ends.** Legacy Nuxt 2 / Vue 2 / Vuetify, a new Vue 3 + Vite app and a React + TypeScript + Tailwind client portal.
- **Integrated external platforms.** Zoom, Google Calendar, Telegram, WhatsApp (Weni) and Clicksign; currently focused on the Zoom integration and an AI-assisted sales flow.
- **Shaped work before it was built.** Wrote the technical refinement of each card ahead of implementation and took part in design reviews.

Stack: Python, **FastAPI**, **AWS Lambda**, **SQS**, **DynamoDB**, Secrets Manager, Pydantic, SQLAlchemy, Alembic, pytest, OpenSearch, Redis, **Vue**, Nuxt, Vuetify, **JavaScript**

Full Stack Developer

Feb 2024 - Aug 2024
Sorocaba, Brazil

Epiousion IT

- **Increased API delivery reliability.** Led back-end development with Node.js, NestJS, and TypeScript, structuring services to support scalable feature growth.
- **Improved data consistency and reduced maintenance overhead.** Built structured access layers with TypeORM and Prisma ORM using clearer contracts between business logic and storage.
- **Shortened end-to-end implementation time by ~20%.** Delivered full-stack features with React and Tailwind while keeping front-end and back-end decisions aligned from the start.
- **Supported more stable feature releases.** Worked across PostgreSQL, SQL Server, and MongoDB with data models designed for predictable queries, cleaner integrations, and easier evolution over time.

Stack: Node.js, **NestJS**, **TypeScript**, TypeORM, Prisma, **React**, Tailwind, **PostgreSQL**, SQL Server, MongoDB

Software Developer for Cloud Computing

Jan 2023 - Feb 2024
Aachen, Germany

Fraunhofer Institute for Production Technology

- **Improved usability for cloud-based simulation workflows.** Built React and TypeScript interfaces with MUI that made technical operations easier to navigate and execute.
- **Reduced manual handling in simulation routines.** Developed Python microservices with parameter validation and CRUD flows, helping engineering teams run processes more consistently.
- **Improved integration reliability across cloud services.** Connected microservices and consolidated outputs into structured HDF formats that were easier to store, inspect, and reuse.
- **Increased analysis readiness for manufacturing datasets.** Processed aircraft-engine milling data with LabVIEW, DIAdem, and GraphQL to support clearer downstream interpretation.

Stack: Python, **microservices**, **React**, **TypeScript**, MUI, HDF5, GraphQL, LabVIEW, DIAdem

Frontend Developer

May 2021 - Dec 2022
Sorocaba, Brazil

Huawei · Internship

- **Improved delivery consistency across websites and internal systems.** Built front-end features with JavaScript, Vue.js, HTML, and CSS using reusable implementation patterns.
- **Reduced layout rework and strengthened user experience.** Implemented responsive interfaces with a consistent focus on usability, performance, and visual quality.
- **Supported more reliable data-driven features.** Collaborated on SQL-backed implementations and aligned interface behavior with underlying business data.

Stack: Vue.js, **JavaScript**, HTML, CSS, SQL

EARLIER EXPERIENCE

Mechatronics Technician

Jan 2020 - May 2021
Sorocaba, Brazil

VCP Industrial Automation

- **Improved day-to-day operational continuity.** Supported software and hardware environments in ways that reduced interruptions and kept internal teams productive.
- **Increased documentation reliability and internal access to information.** Maintained websites and technical materials with a stronger focus on clarity and ongoing usability.
- **Supported multidisciplinary automation projects more effectively.** Designed mechanical components with CAD tools and improved coordination between technical areas.

EDUCATION & CERTIFICATIONS

AWS Certified Cloud Practitioner
Amazon Web Services | Jun 2026 | Credential

Computer Engineering
Facens - Sorocaba University of Engineering | Jan 2020 - Dec 2025 | Sorocaba, Brazil

Mechatronics Technician
SENAI | Jan 2017 - Dec 2019 | Sorocaba, Brazil

English Studies
Wizard by Pearson | Jan 2011 - Dec 2017 | Sorocaba, Brazil

TECHNICAL SKILLS

Back-end	Python, FastAPI, Pydantic, SQLAlchemy, Alembic, pytest, Node.js, NestJS, Express, Prisma, TypeORM
Cloud	AWS Lambda, SQS, DynamoDB, Secrets Manager, OpenSearch, Redis, Docker
Front-end	TypeScript, JavaScript, Vue, Nuxt, Vuetify, React, Tailwind, MUI, HTML, CSS
Data	PostgreSQL, DynamoDB, SQL Server, MongoDB, data modeling
Workflow	Git, GitHub, pytest, Postman, Insomnia, technical refinement, agile

PROFESSIONAL PROFILE

Working style: autonomous, versatile, and self-taught in acquiring new knowledge.

Quality focus: maintainable code, interface consistency, and dependable user-facing behavior.

Strength in teams: cross-functional collaboration, delivery ownership, and clear technical communication.
